

4th September 2017

Vanessa Miranda
The Miranda Foundation

Dear Vanessa,

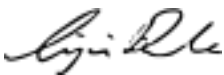

We are so grateful for the funding support you are providing for the ALLaboard study. We would like to express our most sincere gratitude and we look forward to sharing the results of this study with you. The families participating in the study are reporting direct benefits as a result of their participation. We look forward to this benefit extending to families in the years to come as we learn more about the cognitive and psychosocial late effects of childhood leukaemia and are thus able to develop effective interventions and indeed prevention measures.

Please find attached some general information about the study and our progress to date, along with annual newsletters that are provided to the families enrolled on the study.

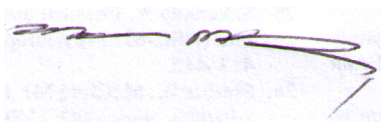

We would be most happy to speak with you directly if you would like to talk with us about the study in more detail.

Again, we remain so sincerely grateful for your ongoing involvement in supporting ALLaboard.

Yours sincerely

Dr Cinzia DeLuca
Clinical Neuropsychologist

Dr Maria McCarthy
Mental Health Clinician
